

Dear Families of Saint Joseph School,

Once again, we've had a wonderful week of growing in love and growing in learning.

I am witnessing the hard work and dedication of so many of you as we prepare for El Rancho! I am impressed with all of the components necessary to make it successful and, we are counting on the entire community to participate, which will lead to great success. This money helps us keep tuition more affordable.

I also want to thank you for your positive response to the fingerprint requirement, which is crucial for all volunteers to do in preparation for events such as El Rancho.

This year, Saint Joseph Elementary School will have the opportunity to work with a qualified counselor, Daria Wrubel, who will work with our teachers and students. We will be sending a release form home to each family. We look forward to working with you to ensure that this opportunity will help to not only optimize intellectual growth, but social and emotional growth as well. I am attaching a letter providing you with our counselor's qualifications.

God's Blessings On Each of Us  
Dr. Marquita Yriarte  
Principal
